THE TERRY FOUNDATION

2006 - 2007 ANNUAL

MESSAGE FROM THE FOUNDER

As the Terry Foundation approaches our twenty-first anniversary, what began modestly in 1986 is now the largest private source of scholarships for a growing number of Texas public universities. After its first seventeen years at the University of Texas at Austin and Texas A&M University, the Foundation expanded in 2004 to include Scholars at the University of Houston and at Texas State University-San Marcos.

In 2005, the Board of Directors approved additional growth for the Terry Foundation Scholarship Program to the University of Texas at San Antonio and the University of Texas at Dallas. The first Scholars for UT-Dallas and UT-San Antonio were selected at interviews in April, 2006. These Scholars completed their first year of college in the spring of 2007.

In April, the Foundation selected a total of 197 new 2007 Scholars, a record high. We are proud of the Scholars and Scholar Alumni who joined our Board of Directors in selecting the new class, which combined with our existing Scholars, will bring the total number of active Terry Scholars at all six universities to more than six hundred fifty students.

The spring of 2007 also brought graduation to 128 Terry Scholars who join a growing body of Scholar Alumni that now numbers over 1,000.

In October, the Foundation Board of Directors voted to expand its number. As a result, two additional Scholar Alumni have been added to the Board. We're pleased to welcome Gayle Stinson (UT-Austin Scholar class of 1987) and Jeffrey Stichler (Texas A&M Scholar class of 1990) to membership on the Foundation Board.

On behalf of the Board of Directors and the Foundation staff, we would also like to thank the staffs at the University of Texas at Dallas, the University of Texas at San Antonio, Texas State University-San Marcos, the University of Houston, Texas A&M University, and the University of Texas at Austin, for their invaluable assistance during our annual interview process in Austin, Houston, Dallas, and San Antonio.

Remember, the harder you work, the luckier you get!

Howard L. Terry

A handwritten signature in dark ink, appearing to read "Howard L. Terry". The signature is written in a cursive, flowing style.

HISTORY OF THE FOUNDATION

“Success is the attainment of the goals you’ve set for yourself in life.”

—Howard L. Terry

The Terry Foundation’s goal is to improve and develop the State of Texas by assisting Texas students to attend the state’s finest public universities. The Foundation hopes that these students will have a significant impact on the future leadership of the state and nation. To achieve this goal, the Foundation awards full scholarships to students who meet the high standards set by the Founders.

What began in 1986 as a small scholarship program is now the state’s largest private source of scholarships for the University of Texas at Austin, Texas A&M University, the University of Houston, Texas State University-San Marcos, the University of Texas at San Antonio, and the University of Texas at Dallas, with over 650 Terry Scholars enrolled. But its origin was neither large nor legendary – it was as humble and low-profile as the Founders whose name it bears.

The Terry Scholarship Program was born of a desire of Howard and Nancy Terry to help young people to help themselves. A long-time resident of Houston, Howard Terry had been active for many years in banking, construction, real estate and oil and gas. With profound business success over the decades and their family’s needs met, the Terrys developed a growing desire to give back to the community and, specifically, to help young people to reach their goals in higher education.

In 1986, the Terrys began considering a variety of options in their desire to make a lasting contribution to the future of Texas higher education. After evaluating ideas as varied as university campus construction projects and endowed-chair faculty positions, the Terrys were still not satisfied. Knowing that universities are more than buildings and classrooms, Howard Terry had repeatedly declined to allow the universities to honor his previous contributions by placing his name on campus structures: “Mortar and bricks will eventually be torn down,” he reasoned. The Terrys believed, in the long term, that a university – like the state it represents – is only as good as the educated citizens it

Howard Terry and 1987 UT Scholar Jina Kim Yun at the 1991 Winedale Picnic. In the early years of the Foundation, all the Scholars at the annual picnic could sit together around just a few tables.

produces. Thus was born a desire to invest in the students who would attend the public colleges and universities in Texas.

The Terrys’ desire to help young people was influenced greatly by Howard Terry’s own college experience: he had attended the University of Texas on an athletic scholarship, becoming captain of the football team and graduating in 1938. His family origins in Cameron, Texas were modest and it was only through the generosity of others that his college education had been made possible. Mr. Terry never forgot the helping hand that he had received in attending college and was determined to extend that same help to a new generation of students.

At one of the earliest picnics, Mr. Terry addressed all the Scholars – without a microphone.

After seeking counsel from sources that included former UT coach Darrell Royal (an original Foundation Board Member) and Houston attorney Rhett Campbell (Board Member since inception and now Board Chair), the Terrys determined that their most lasting contribution would be through a perpetual endowment that would provide college scholarships for students who had demonstrated the capacity to become outstanding future leaders and who needed financial assistance to achieve their goals in higher education. From this simple concept, the Terry Foundation was created in 1986 to be the source of a perpetual scholarship program.

The earliest Scholar classes at each university numbered as few as eight.

The first scholarship recipients, known since then as "Terry Scholars," were selected at interviews held in the spring of 1987. That original class of seventeen 1987 Scholars was joined in the 1988-1989 academic year by seventeen additional recipients. Over the years, the number of Scholars selected has increased, with the most recent spring 2007 interviews having resulted in the selection of 197 new freshmen Scholars. These recipients will join the upper-class Scholars to number over 650 Terry Scholars enrolled for the 2007-2008 academic year.

During the first seventeen years of the Foundation's history, Scholars attended only the University of Texas at Austin or Texas A&M University. In the fall of 2004, the Foundation Scholarship

Program expanded for the first time, when Terry Scholars were named at the University of Houston and at Texas State University-San Marcos. Two years later, additional growth provided scholarships in the fall of 2006 at the University of Texas at Dallas and the University of Texas at San Antonio. Strategic future plans call for the program's ultimate expansion to other public universities in Texas.

Since its inception, the Terry Scholarship Program has assisted over 1,700 Texas college students to achieve their goals in higher education. The Foundation Board oversees an endowment that is now almost \$135 million and includes four members who are Terry Scholar Alumni. Chartered to exist into perpetuity, the Foundation is designed to continue in the future to provide a greater number of scholarships each year.

Howard and Nancy Terry continue to be active participants in the Scholarship Program that bears their name. It has become larger than they ever imagined, fulfilling in the process their dreams of making a difference in the lives of students across the state.

Despite his extraordinary success in ventures that made the Terry Foundation possible, Howard Terry observes that "the Terry Foundation is the most important thing I've done in my life, because it's enabled me to help more people than I would have ever been able to help otherwise."

Howard and Nancy Terry with the Terry Scholars, Directors, Staff, Alumni and special guests. 2007 Winedale Picnic.

THE TERRY SCHOLARSHIP PROGRAM

Criteria

The Terry Foundation awards scholarships to Texas high school seniors who have been accepted for admission to the University of Texas at Austin, Texas A&M University at College Station, the University of Houston, Texas State University-San Marcos, the University of Texas at San Antonio or the University of Texas at Dallas. To be selected to receive a scholarship, potential Terry Scholars must demonstrate academic excellence, leadership and financial need.

Terry Scholars are distinguished by a deep-rooted desire to enrich the general welfare of the community and an established record of leadership. In order to select Scholars with the greatest potential for success, the Foundation's selection committees focus on candidates with a demonstrated history of involvement in activities, outstanding scholastic achievement and a well-rounded personality marked by a desire to succeed.

Nominations for Terry Scholarship awards are accepted only from the designated offices at the University of Texas at Austin, Texas A&M University at College Station, the University of Houston, Texas State University-San Marcos, the University of Texas at San Antonio or the University of Texas at Dallas. Nominations are not accepted from any other source.

Alumni Star Carter (UT-Austin 2000), Melody Ayeli (UT-Austin 2000) and Mandy Price Brown (UT-Austin 1999).

Foundation Directors John Storms and Jeff Stiehler with Alumni John Jambers (TAMU 2002), Allison Beckworth Readinger (UT-Austin 1994) and Elizabeth Riley Keeler (TAMU 1992) and Scholar Stephanie Johnson (UT-Austin 2003). 2007 Houston Interviews.

The Selection Process

Each year in April, the Terry Foundation announces the new class of Terry Scholars after an intensive two-step selection process. Early each spring, the universities nominate candidates from the freshman class that will matriculate the next fall. In selecting nominations, the universities adhere to the selection criteria guidelines established by the Terry Foundation.

While the numbers of nominations and subsequent scholarships have grown substantially since the first scholarships were awarded in 1987, the process to win a scholarship has remained highly competitive. In selecting finalists, the selection committees at the affiliated universities are limited to a small fraction of the thousands of applications received.

The Foundation administration invites the finalists to formal interviews conducted each spring concurrently in Austin, Houston, Dallas and San Antonio. Finalists meet with a six-member panel consisting of members of the Foundation Board of Directors, Alumni Scholars and current Terry Scholars. The interview panels make the final selections and new Scholars are notified prior to May 1st of the interview year.

In April 2007, the thirteen interview panels met with 416 finalists for the final selection process. Of those finalists, 197 were selected for Terry Scholarship Awards.

The Stipend

The Terry Scholarship Award holds the potential to be a full, four-year stipend. Initially, the scholarship is awarded for a Scholar's first year of college and is renewed annually at the discretion of the Board of Directors. In order to continue as a Terry Scholar, a student must maintain a cumulative GPA of 2.5, meet the requirements for mandatory attendance at specific Terry Foundation events and fulfill other reporting requirements.

The Terry Foundation seeks to provide adequate financial support for each Terry Scholar so that students may concentrate on academics and college-related activities, without having to incur debt to finance their education. In addition, the Scholarship Program is designed to eliminate the need for Scholars to work during the college years.

The amount of the stipend is based on the full cost to attend the universities, including tuition, fees, books, on-campus room and board and miscellaneous expenses. Over the years, the amount of the stipend has increased each year due to rises in cost of living and tuition. The actual specific amount of the stipend will vary for each Scholar, depending on other scholarship awards and the ability of the Scholar's family to contribute to the cost of college.

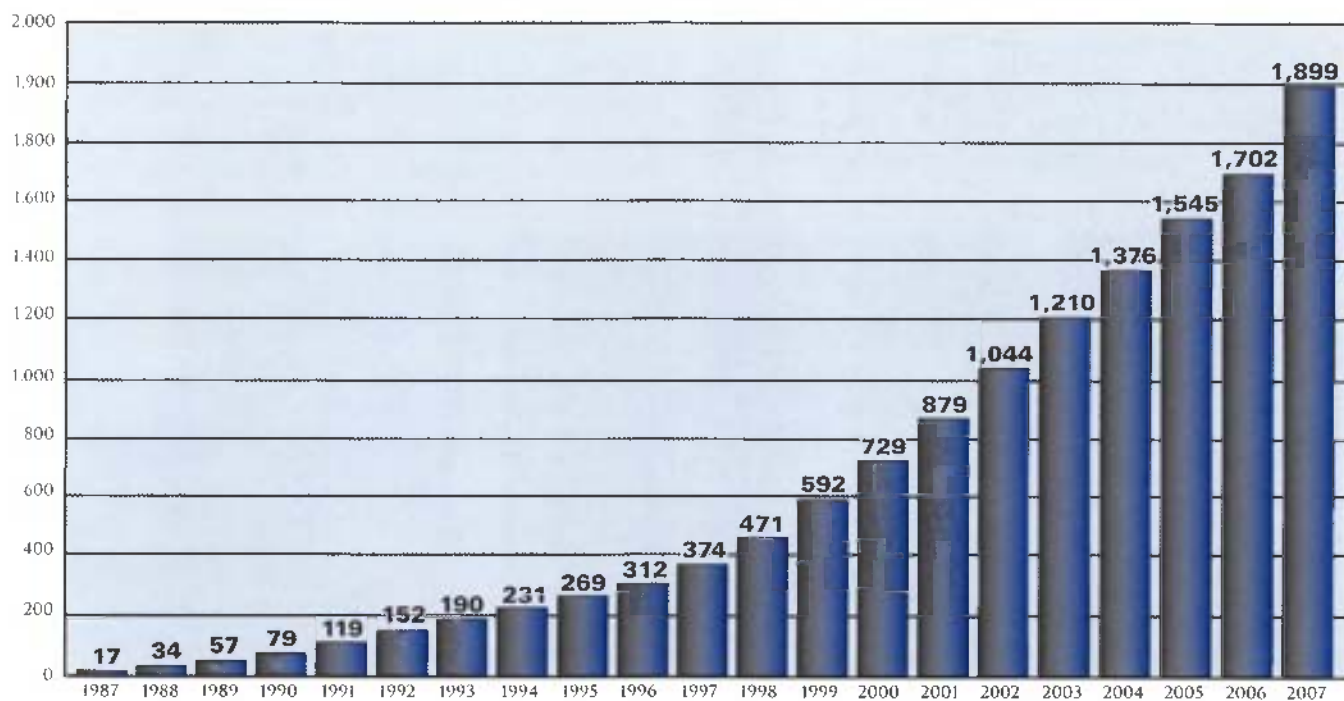

*Ashley Summers, Amanda Morales and Karl Miller.
2006 UT-Austin Orientation.*

Funding

The Terry Scholarship Program is funded by the earnings of an endowment that has been provided solely by the Founders and is managed by the Terry Foundation. The current endowment is approximately \$135 million. The Foundation is chartered to exist into perpetuity and anticipates additional growth based on incremental endowment by the Founders.

CUMULATIVE TOTAL NUMBER OF TERRY SCHOLARS

TERRY TRADITION, SERVICE AND FELLOWSHIP

Texas Stars Shine, On Campus and Off...

Terry Scholars are known for high standards of academic achievement, but the Terry college experience includes more than classrooms and tests. The six Terry Scholar student organizations were busy on campus throughout the year with activities which included outstanding volunteer projects, social outings, intramural sports competition, and various Terry Scholar campus traditions, including a unique ritual at the University of Houston, where Scholars proceed from the annual fall banquet to the more informal “fountain jump.”

UH car wash fund-raiser.

TAMU Scholars participate in RePlant.

with students at a local elementary school. In addition, Scholars participated in Bobcat Build, a community-wide reconstruction project and at the Greater San Marcos Youth Council, a shelter for orphans and abused children.

Volunteer service is an important part of the “give back” promise that accompanies each Terry Foundation scholarship. In the new student organizations at UT-Dallas and UT-San Antonio, the first class of Scholars at each school were quick to establish new traditions. The UT-San Antonio Scholars joined the Salvation Army’s “Adopt-A-Kettle” project to raise funds during the holiday season. At UT-Dallas, Scholars participated in the Dallas Ramps project, constructing access ramps at homes of disabled Dallas-area residents. Other Dallas activities included service days for Habitat for Humanity and MediSend, sorting medical supplies to be sent abroad.

In San Marcos, the Scholars at Texas State volunteered through Terry’s Kids, a mentor program developed in 2005 by the Texas State Terry Scholar organization. Each week Scholars spent time

At the University of Houston, Terry Scholars volunteered at the Houston Children’s Museum and worked together to help build a Habitat for Humanity House. Other opportunities included HOSTS, a weekly school mentor program, and a holiday project benefiting two families through Houston’s Adopt-A-Family program.

The long-standing Terry Foundation Student Organization at Texas A&M is centered on service. Aggie Scholars were busy year-round maintaining a two-mile strip of land in Bryan through the state’s Adopt-A-Highway program. Trick-or-treating at Halloween raised funds for UNICEF and Scholars also participated in Texas A&M’s RePlant project, a drive to beautify the campus.

At the University of Texas in Austin, Scholars donated time to SafePlace (Austin’s center for domestic violence) by preparing a meal for occupants and by volunteering for SafePlace’s annual fund-raiser, SafeWalk. Other volunteer events included Project 2007, Austin’s annual community clean-up project.

UH fountain jump.

UT-Dallas Scholars at the Dallas Opera.

UT-Dallas Scholars construct handicap-access ramps.

During March of 2007, Scholars from several universities joined forces to travel to Pass Christian, Mississippi, to aid in the continued Katrina relief efforts. While some Scholars volunteered in the kitchen, most worked on three different houses in painting, scraping and general clean-up. Described by participants as a “great trip and an eye-opening experience for all,” this effort marked the second consecutive year when Scholars have donated time during Spring Break to volunteer in the Katrina relief effort.

In January of 2007, leaders from all six Terry Scholar organizations convened in New Braunfels at the TBarM Camp and Conference Center for the 2nd annual Officer Retreat. Sharing time for brainstorming and for fellowship, the student leaders exchanged ideas and experiences, with representatives of the veteran organizations offering suggestions and mentoring to leaders from the two first-year universities.

Not all the Scholars’ time was spent in study or volunteer activities – highlighting the intramural success for the year were the Teenage Mutant Ninja Terrys at UT-Austin. Enjoying consistently large turnout at events and signature green jerseys, the ‘TMNT’s headed to playoffs for three of the four sports entered, finishing in the semi-finals for volleyball, runners-up for girls’ softball, and winning the co-ed softball campus championship.

In addition to volunteer activities and sports, the Scholar organizations provided social opportunities that were equally varied. From canoe trips to opera, Terry Scholars played as hard as they studied and worked. At UT-San Antonio, bowling and ice cream outings were a tradition. In San Marcos, the Texas State Scholars enjoyed movie nights, lazy days afloat on the river, and an annual white-elephant gift exchange at the year-end holiday party.

UT-San Antonio Scholars picnic-bond.

UT-Dallas Scholar Carson Curry at the Dallas Ramps project.

“We started out searching for what it means to be a Terry Scholar; to lay a foundation for future Scholars to come...”

Texas State Scholars Glenda Molina, Kayla Bean, Bliss Wilson and Erica Rodriguez at the Greater San Marcos Youth Council.

The UT-Austin Teenage Mutant Ninja Terrys - Intramural co-ed softball campus champions.

In Dallas, Scholars enjoyed a university-sponsored trip to the Dallas Opera. University of Houston Scholars shared a bar-b-cue cookout and continued another UH tradition: fine Vietnamese cuisine at the recurring "Pho Night."

Aggie Scholars honed their skills at an ice-skating party and hosted tail-gates for TAMU football and baseball games. At the University of Texas at Austin, the Scholars hosted movie night at

the Student Union and enjoyed canoe outings on Town Lake.

The campus organizations are the face of the Foundation at each university. The groups' activities are an important part of the Foundation's efforts to provide for Scholars the supportive community that was envisioned by the Founders. The Board of Directors sends its thanks to the student leaders of each group and to the on-campus sponsors from the universities' administrations.

*"...we connected with those we helped,
and connected with our fellow Terrys as well..."*

UT-Dallas Scholar Reese Popst and UT-Austin Scholars Kevin McPherson, Patrick Frasier and Steph Garrett enjoy the BBQ cooked by "Fats" (pictured in the background) after a long day working on his house in Mississippi during the Spring Break trip to volunteer in the Katrina relief effort.

"...we had a lot of fun together, grew together, and have definitely begun friendships that will last a lifetime."

THE UNIVERSITY OF TEXAS AT SAN ANTONIO

Main Building, 1604 Campus, University of Texas at San Antonio.

The University of Texas at San Antonio is one of the fastest-growing universities in the state and is the second-largest academic institution of the prestigious University of Texas System. Located in the seventh largest city in the nation and second largest city in Texas, the university has become the regional center for higher education, reflected in a 60 percent growth in enrollment over the last ten years.

Created by an act of the Texas Legislature in 1969, UTSA enrolled its first students in 1973. In its short history, the university has grown to an enrollment of more than 28,300 students and three campuses – the 1604 Campus in Northwest San Antonio with 30 buildings on 600 acres; the Downtown Campus with four

buildings on 11 acres and UTSA's Institute of Texan Cultures, a museum with 50,000 square feet of exhibit space that attracts more than 300,000 visitors annually.

UTSA serves more students than any other higher education institution in South Texas, offering 63 undergraduate, 43 master's and 20 doctoral programs in eight colleges: College of Architecture, College of Business, College of Education and Human Development, College of Engineering, College of Liberal and Fine Arts, College of Public Policy, College of Sciences and Honors College. Master's and doctoral degree programs are coordinated through the Graduate School and 13 percent of the student body is enrolled in graduate programs.

As the region's largest generator of engineers, artists, business professionals, teachers, scientists and technology managers, UTSA has produced more than 72,000 graduates since awarding its first degrees in August 1974.

The university's campuses provide access and opportunity for large numbers of historically underserved students. More than 57 percent of UTSA's students come from groups underrepresented in higher education and nearly 70 percent are the first in their families to attend a college or university.

Outside of the classroom, students may choose from more than 200 student organizations. UTSA's Recreation Center boasts the tallest college climbing wall in Texas, and expansions of on-campus housing, the University Center and the Recreation and Wellness Center are nearly complete.

Today, UTSA is emerging as a premier research university while remaining committed to its original mission of providing affordable, accessible higher education to the people of Texas and beyond. Balancing excellence with access is a challenge that has been embraced by the university community as both a goal and a responsibility.

UTSA is making great strides in the research arena. Research and sponsored program funds totaled nearly \$50 million in 2006. The university recently opened an \$84 million biotechnology, sciences and engineering facility and has created several important research centers that are gaining national prominence. In addition, construction of an \$83 million engineering building will begin in summer, 2007.

The university's rapid growth in student population has been matched by outstanding additions to faculty and to the number of endowed chairs and professorships: in 2005 alone, seventy new faculty members were hired and in 2006 UTSA had a total of 556 tenure/tenure-track faculty positions. The university's endowed positions have increased to 29 including 12 distinguished chairs that are endowed at \$1 million each.

UTSA research is as diverse as its student body. Awards from federal, state and local agencies, as well as private foundations, support a wide range of basic and applied research projects, public service work and training programs.

Some of the funded projects include using mathematical models and computer simulations to study Parkinson's-related diseases, studying the biogeochemistry of contaminated soils and assisting high school teachers to include engineering principles in their math and science curricula.

Funding from NASA, the National Institutes of Health and the National Science Foundation supports research projects in biology, chemistry, earth and environmental sciences, physics and astronomy, engineering, computer sciences, mathematics and statistics, and the behavioral sciences.

The University of Texas at San Antonio is committed to becoming one of the top 100 public research universities in the United States while continuing to draw on the strength of a diverse cultural heritage and to expand access to education at a record-setting pace.

THE UNIVERSITY OF TEXAS AT DALLAS

Administration Building, University of Texas at Dallas.

As one of the most agile and rapidly growing universities in the world, The University of Texas at Dallas (UT Dallas) attracts an extraordinary combination of student and faculty resources to the vibrant, dynamic and globally connected Dallas-Fort Worth area. UT Dallas' relatively brief history has been committed to the pursuit of excellence and the steadfast determination to maintain the highest standards of quality.

Students seeking the close-knit community of a small university and the reputation and resources of a big one find the perfect balance at UT Dallas. With an enrollment of approximately 14,500, UT Dallas offers all the benefits of a small campus: excellent student/faculty ratios and a diverse yet intimate community where every student has a voice. However, UT Dallas is also backed by the powerful UT System and strategically aligned with

other institutions to offer advanced research and other exciting opportunities traditionally found at larger universities.

UT Dallas' research in a variety of fields, especially in engineering and the biomedical sciences, has gained national attention. Much of this research is conducted at UT Dallas' specialized research centers. Scientists at the Center for BrainHealth conduct cutting-edge research on brain-related diseases and injuries. The Cybersecurity and Emergency Preparedness Institute works to address issues of homeland security, emergency and disaster response and cybercrime. UT Dallas' Sickle Cell Disease Research Center is the only facility of its kind in the Southwest and the first NIH-funded sickle cell center in the state. The Callier Center for Communication Disorders provides state-of-the-art diagnostics and treatment for hearing, speech and language disorders. And the

Nanotech Institute is at the forefront of understanding and exploiting the nanoscale with such discoveries as hydrogen-powered artificial muscles that are one hundred times stronger than human muscles.

Excellence in research is only logical for UT Dallas, which originated as a science and engineering research facility before it became a university in 1969. These research roots have fostered a culture that values innovation and advancement, embraces change and encourages multidisciplinary study. A prime example of this legacy is the university's Natural Science and Engineering Research Laboratory, designed to be one of the most revolutionary research facilities in the nation. The four-story, 192,000-square-foot laboratory supports interdisciplinary collaborations among researchers in fields as diverse as chemistry, biology, physics, electrical engineering and materials science.

Beyond the laboratory, UT Dallas' School of Management has a nationally ranked Cohort MBA program, and its executive MBA program is ranked #1 in the region by Financial Times. The School of Arts and Humanities' Arts and Technology program merges fine arts and computer science. These excellent and wide-ranging

academic programs have attracted outstanding faculty, including a Nobel laureate and members of the National Academy of Sciences and the National Academy of Engineering, and are a magnet for the state's top students. UT Dallas' entering freshman class has the highest average SAT score (1250) of any public university in Texas, and more than 40 percent of incoming freshmen are in the top 10 percent of their high school class.

As a young university, UT Dallas is not limited by tradition, and its students are not bound by pre-set academic paths or narrow silos of study. They are free to create a customizable degree plan or choose from many multidisciplinary programs as well as flexible scheduling options. Many students choose UT Dallas based on its academic excellence (and for its spacious, apartment-style dorms), and grow to love the way they become an integral part of a growing intellectual and social community.

A unique institution of extraordinary quality and excellence, The University of Texas at Dallas has set new standards for creative innovation in Texas universities and – with the same enthusiasm and energy that has so distinctively marked their past – they are looking forward to a brighter and even more exciting future.

THE UNIVERSITY OF HOUSTON

The University of Houston Cullen Performance Hall and the Houston skyline.

The University of Houston, the nation's most ethnically diverse research university, is celebrating its 80th anniversary in 2007. More than 34,000 students attend UH's twelve academic colleges and the multidisciplinary Honors College. The university offers 109 bachelor's, 131 master's, 51 doctoral and three professional degree programs. Students learn from faculty members who hold the Nobel Peace Prize, the Pulitzer Prize, Tony Awards, the National Medal of Science, and numerous national and international awards for their work in the arts, humanities, sciences, engineering, business, law and social work.

Faculty members conduct nearly \$80 million in research in such vital areas as superconductivity, space commercialization, biomedical engineering, economics, biological sciences, education, and petroleum exploration. Two of the most recent research initiatives include the UH-led Lone Star Wind Alliance, which has received funding from the State of Texas and the federal government to build a large turbine-testing facility in south Texas, and the Institute for Biomedical Imaging Science, a partnership among UH, Houston's Methodist Hospital, and Cornell University's Weill Medical College.

The recently completed, \$81 million Science and Engineering Research and Classroom Complex will provide facilities for the many interdisciplinary research programs related to bionanotechnology. The UH Law Center offers Health Law, ranked second in the nation, and Intellectual Property Law, ranked fourth in the nation according to U.S. News & World Report.

UH has more than 300 partnerships with government and private industry and is the home of KUHT, the country's first educational television station, and KUHF, Houston's NPR station.

Outstanding academic programs mark every area of study at UH: the Creative Writing Program is ranked second in the nation by U.S. News & World Report and is one of the most competitive programs in the country and one of only two offering a Ph.D. The Conrad N. Hilton College of Hotel and Restaurant Management is the only program of its kind in Texas and is ranked third nationally.

The College of Liberal Arts and Social Sciences' doctoral psychology program is ranked second in Texas, with the psychology and the clinical neuropsychology programs among the top 20 in the nation, according to the National Research Council.

Students in the Moores School of Music consistently place first in regional and national competitions and the American Educational Research Association ranked the College of Education among the top schools in the country in research productivity, with special recognition for the pioneering of innovative technologies for teaching and learning.

Students in the Gerald D. Hines College of Architecture routinely win national and international competitions and the Cullen College of Engineering's chemical engineering, mechanical engineering, and civil engineering programs are ranked among the top programs in the nation. The architecture college also offers the nation's only graduate degree in space architecture. A new undergraduate program in biomedical engineering, combined with recent strides in nanoengineering, has poised UH to become one of the premier players in bionano research.

The C.T. Bauer College of Business boasts the top entrepreneurship program in Texas and its accounting department consistently ranks first or second for Texas CPA exam pass rate. Additionally, the college is one of five U.S. schools with multiple members in the Academy of Management Hall of Fame and the marketing faculty is ranked in the top five percent worldwide. The MBA program ranks fifth among public universities for producing CEOs of S&P 500 companies according to Bloomberg Markets. According to U.S.

News & World Report, the undergraduate business program ranks in the top five percent in the nation.

The College of Pharmacy has partnered with the U.S. Food and Drug Administration in a cooperative effort unique in the nation, where students will help to develop and exchange scientific resources and educational opportunities. Two colleges, architecture and optometry, were recently ranked number one in the nation by the Hispanic Outlook in Higher Education magazine for awarding degrees to Hispanic students.

The university's 560-acre campus abounds with parks, fountains, plazas, sculptures, trees and recreational fields. A newly adopted master plan will add more residence halls and other amenities to transform the campus from a commuter to a residential one. A \$100 million project that will add some 700 loft apartments will soon break ground, and a Welcome Center where students can find a multitude of services, ranging from admissions to financial aid, has just been completed. These projects are in addition to the Campus Wellness and Recreation Center, one of the nation's largest and most advanced facilities of its kind, which opened four years ago. The Athletics Department at UH is truly world-class, with over 73 NCAA championships and 53 Olympians.

In addition to campus programs, the UH Distance Education program provides educational opportunities to students in outlying areas—the University of Houston is the largest university distance education program in Texas. UH has awarded more than 250,000 degrees, and approximately 80 percent of alumni remain in the Houston metropolitan area. At the University of Houston, students thrive and new knowledge is created to benefit future generations.

TEXAS STATE UNIVERSITY-SAN MARCOS

Located at the heart of campus, "Old Main" has long been the symbol of Texas State University-San Marcos.

Texas State University-San Marcos is a doctoral granting university located in the burgeoning Austin–San Antonio corridor, the largest campus in the Texas State University System, and one of the largest in the state.

Texas State's 27,500 students choose from 111 undergraduate, 86 master's and six Ph.D. graduate degree programs offered by seven colleges – Applied Arts, the McCoy College of Business Administration, Education, Fine Arts and Communication, Health Professions, Liberal Arts and Science.

Authorized by the Texas Legislature in 1899, Southwest Texas State Normal School opened its doors in 1903. Over the years the Legislature broadened the institution's scope and changed its name, in succession, to Normal College, Teachers College, College,

University, and in 2003 to Texas State University-San Marcos. Each name reflects the university's growth from a small teacher preparation institution to a major, multipurpose university. Texas State's original mission was to prepare Texas public school teachers, especially those of south central Texas. It became renowned for carrying out this mission, but today it does far more.

As the university's student population has grown – from 303 in 1903 to 27,500 in 2006 – the campus, too, has expanded. The original 11-acre main campus has grown to 429 acres, plus an additional 4,200 off-site acres in ranching, farming and a recreational camp. Major acquisitions include the 79-acre San Marcos Baptist Academy campus in 1978, 90-acre Aquarena Springs Resort in 1994, 125-acre University Camp on the Blanco River in 1951, and 3,485-acre Freeman Ranch in 1985.

Located on the edge of the Texas Hill Country where blackland prairies turn in to beautiful hills, Texas State enjoys a setting that is unique among Texas universities. The beauty of the crystal-clear San Marcos River and the stately cypress and pecan trees on the campus add to the charm of its

picturesque setting. The campus is in San Marcos, a community about halfway between Austin and San Antonio. Its location on the banks of the San Marcos River provides recreational and leisure activities for students throughout the year.

Texas State is nationally recognized for excellence in many academic disciplines. The Geography Department has been ranked the largest and one of the best programs in the nation for many years by the American Association of Geographers. Faculty members in geography, communication studies, business, mathematics and mass communication have been recognized as the best in the nation in their fields. Sixteen faculty members have been honored as Piper Professors, an annual recognition of the top college faculty in the state.

Student teams in debate, advertising and free enterprise routinely place high in national competitions. The Students in Free Enterprise (SIFE) team won the international competition in 2000 against 700 teams from 15 countries and has placed among

the top 20 for eight straight years. The American Advertising Federation student team claimed its second national title win in 2005.

Texas State students in jazz, marching and concert band, symphony, choirs, instrumental ensembles, mariachis and steel drum band maintain schedules of performances across the state and the world. The jazz program has been featured for years at the Montreux (Switzerland) Jazz Festival. The sound recording technology program, housed at Texas State's unique Fire Station Studio, is the only degree program of its kind in the Southwest.

With a diverse campus community including more than 26 percent of the student body from ethnic minorities, Texas State is one of the top 20 producers of Hispanic baccalaureate graduates in the nation. Texas State is also the lead institution of a multi-institution teaching center offering several programs in the greater north Austin area. There are 1,586 students enrolled at the Round Rock Higher Education Center.

The university has granted well over 100,000 degrees over the years. Alumni include Lyndon B. Johnson, Class of 1930, making Texas State the only Texas institution – and one of only 29 colleges nationwide – to have graduated an American president. Our Texans have become leaders in business, education, entertainment, media, literature, the military, law enforcement, government, agriculture, technology, science, sports, law and health care.

THE YEAR IN REVIEW

Campus Orientation

Terry Scholars at each of the six universities gathered on campus in Houston, Austin, College Station, San Marcos, San Antonio, and Dallas for the Foundation's annual orientation programs. These events were held in late summer, just prior to the start of the fall 2006 semester.

For new freshmen Scholars, the orientation is designed to focus special emphasis on the challenges faced by first-year college students. The day's events included presentations on the Foundation Scholarship Program by Board Chair Rhett Campbell and President Ed Cotham. The Scholars also met with members of college administration and with invited guest speakers in the fields of time management and study skills.

At the University of Texas at Dallas and the University of Texas at San Antonio, the inaugural classes of 2006 Terry Scholars met for the first time with their new fellow Scholars and with members of the university and Foundation staffs. Plans were initiated for the Terry Scholar organizations at each university and the Scholars later enjoyed an informal dinner and networking at the first Terry Foundation event on each campus.

At the University of Houston and Texas State University-San Marcos, the freshmen Terry Scholars were welcomed by a growing number of upper-class Scholars and by representatives from the university and Foundation staffs. The program included information about upcoming campus and Foundation events and tips for a successful first year at college. The program was followed by a buffet dinner and informal mentoring from the upper-class Scholars, including the 2004 Scholars (now juniors), the inaugural class at each university.

At the University of Texas at Austin and Texas A&M University, the orientation program also included career seminars for upper-class Scholars. The students attended seminars on preparation for graduate school and post-baccalaureate careers which featured counsel from professionals in the work force, many of whom came from the growing body of Terry Scholar Alumni.

At the end of the orientations in Austin and College Station, freshmen and upper-class Scholars met together with representatives of the on-campus Terry Scholar organizations and enjoyed an informal dinner and networking with fellow Scholars. The Terry Scholar Student Association (at the University of Texas at Austin) and the Terry Foundation Student Organization (at Texas A&M University) organized and hosted the activities.

The Fall Banquets

In October of 2006, Scholars were hosted by the Foundation at the annual fall dinners. Foundation Board Members and staff joined the Scholars and university guests in elegant settings for the six banquets, most of which convened on the campuses.

The University of Houston welcomed the Foundation to the Hilton College of Hotel and Restaurant Management for the UH banquet. Scholars greeted Howard and Nancy Terry and enjoyed dinner and networking with the Directors, fellow Scholars, and representatives of the university including UH Provost Dr. Donald J. Foss.

The dinner with Scholars from UT-San Antonio was held at Club Giraud on San Antonio's picturesque River Walk. Foundation Board members and representatives from the university joined the Scholars for dinner and a program that included remarks from Dr. Richard Romo, UT-San Antonio President.

Later in the month, the elegant Alumni Center at the University of Texas was the site of the banquet in Austin. Scholars were hosted by the Foundation for a pre-dinner reception with the members of the Foundation Board of Directors and the UT-Austin administration, followed by dinner that included remarks by the student leaders of the Terry Scholar Student Association.

The banquet at Texas State University-San Marcos was highlighted by the remarks of guest speaker Dr. Richard Cheatham, Dean, College of Fine Arts & Communication. Scholars enjoyed dinner with Foundation Board members and fellow Scholars and the Foundation was pleased to also welcome university President Dr. Denise Trauth and members of the university executive administration.

The elegant McDermott Suite in the McDermott Library on the campus of the University of Texas at Dallas was the setting for the inaugural UT-Dallas banquet. Assistant Provost and Dean of Undergraduate Education Dr. Michael Coleman joined the Foundation Board in hosting the Scholars for dinner and a program which included remarks by UT-Dallas President Dr. David E. Daniel.

Later in October, the banquet at College Station was held in the beautiful Jon L. Hagler Center on the campus of Texas A&M University. Aggie Scholars enjoyed an evening of fine dining and fellowship hosted by Howard and Nancy Terry. Scholars joined the members of the Foundation Board of Directors and staff and university representatives including TAMU President Dr. Robert M. Gates.

THE YEAR IN REVIEW

2007 Interviews

April of 2007 brought the highlight of the Foundation year, when thirteen interview panels selected 197 new 2007 Scholars, a record high. The finalists came from every area of Texas to interviews held concurrently in Austin, Houston, Dallas and San Antonio.

The interviews in 2007 included candidates nominated by the two new universities recently added to the Terry Scholarship Program: the University of Texas at Dallas and the University of Texas at San Antonio. At the end of the interviews, the Foundation named sixteen additional Scholars at each of these universities.

Members of the Board of Directors were assisted by 67 Scholar Alumni and current Scholars who served on thirteen selection panels. Over the course of the interviews, the thirteen panels interviewed a total of 416 finalists nominated by the six universities. The Foundation Board of Directors extends special thanks to those Scholars and Alumni Scholars who assisted on the selection panels, with particular appreciation to Scholar Alumni Tammy

Foundation Director Jim Davis with Alumni Lucy Fuhrmann Krahl (TAMU 1988), Chris Dreiling (UT-Austin 1989), Christy Drew Kerr (TAMU 1999), Scholar Drew Jarman (TAMU 2003) and Scholar Jessica Ferritta (UT-Austin 2003). 2007 Dallas Interviews.

Early Philippe (TAMU 1991), Doug Stanley (TAMU 1990), Gayle Cerrato Hanz (UT-Austin 1988) and Jessica Scott (TAMU 1993), who served as panel chairs.

Fall 2006 Scholar Alumni Luncheon

Dallas-area Scholar Alumni gathered in October for the third annual Terry Scholar Alumni Luncheon. Following the success of the inaugural Alumni Luncheon held in Houston in 2004 and the Austin gathering in fall 2005, some fifty-five Alumni Scholars from the north Texas area were hosted by the Foundation for a lunch meeting, where they enjoyed

reunions with Howard and Nancy Terry and renewed friendships with former college classmates and new fellow Scholars in the Dallas area.

Foundation President Ed Corham presented a short program featuring updates on the Foundation's current operations and highlights of future plans, which include additional Scholar Alumni events.

Alumni Ariana Reyes (TAMU 2000) and Jennifer Davis (TAMU 2000). 2006 Dallas Alumni Luncheon.

Luncheon attendees listen intently to Terry Foundation future plans. 2006 Dallas Alumni Luncheon.

THE YEAR IN REVIEW

The Winedale Picnic

The Foundation annual picnic is held the last Sunday in April on the grounds of the Winedale Historical Center near Round Top, Texas. All of the Scholars from each of the participating universities meet together for the only time each year for an informal gathering that honors the graduating senior Scholars.

In April of 2007, over 600 current Scholars were joined by the Foundation Board Members and staff, Alumni Scholars and their families, and special guests from the universities. Catered lunch was followed by the presentation of gifts to the graduating senior Scholars. Following tradition, each Scholar took the microphone to speak briefly of their future plans and then, as a group, honored Howard and Nancy Terry with gifts from each school's class of senior Scholars.

The 2007 picnic was marked by a warm welcome from Scholars for the new freshmen Scholars from UT-San Antonio and UT-Dallas. The 2007 picnic was the first gathering for Scholars from all six universities.

Bright sunshine and balmy breezes contributed to a successful event and Scholars enjoyed the picnic tradition of delicious buffet fare from the grills of Becks Prime Catering of Houston.

The picnic in 2007 concluded with a new twist on the "Terry Olympics," the annual fun-filled competition between the universities. Sponsored by the Scholar student organizations, the athletic events of past years were replaced in 2007 by a collection drive on each campus to raise funds for charity by collecting pocket change. Overcoming a mock objection to the "per capita" judging criteria (from the larger universities), the Scholars from UT-Dallas were named the 2007 winners.

THE UNIVERSITY OF TEXAS AT AUSTIN

Main Building, University of Texas at Austin.

For more than 120 years, students from all over the world have come to the University of Texas at Austin to receive a first-class education. Students who once walked across campus have founded and led Fortune 1000 companies, received Nobel and Pulitzer Prizes, been presented with Academy Awards, hoisted Heisman Trophies and become Olympic gold medalists.

The University of Texas at Austin is recognized for its accomplishments in research, teaching, and public service. It is the flagship of the 15-campus University of Texas System and its main campus houses more than 140 buildings on more than 410 acres. The university

maintains research centers across the state that place its faculty and students at the forefront of study in such areas as nanotechnology, robotics, geophysics, astronomy, marine science, history, literature, and engineering.

The discoveries that happen at the University of Texas impact people all over the world and a groundbreaking initiative called EUREKA (Enhancing Undergraduate Research, Experience, Knowledge and Access) brings cutting edge research opportunities directly to undergraduate students – including freshmen. Students experience centuries of history on campus by studying prehistoric

fossils at the Texas Memorial Museum, gazing at Renaissance and Baroque paintings in the Blanton Museum (the largest university art museum in the country), thumbing through original manuscripts by Ernest Hemingway and T.S. Eliot at the Ransom Center or reliving the turbulent 1960s with a visit through the Lyndon B. Johnson Library and Museum.

The faculty of UT Austin is composed of 2,815 professors and lecturers supported by approximately 3,224 assistant instructors and teaching assistants. They include the winners of the 2006 and 1967 Pulitzer Prize in History; a recipient of the 1968 Enrico Fermi Award; the 1970, 1991, 1993, and 2000 National Medal of Science recipients; and the winner of the 1979 Nobel Prize in Physics. The university has 1,217 endowed academic positions – 294 chairs, 507 professorships, 20 visiting professorships, 126 lectureships, and 271 fellowships. From the efforts of individual faculty members to the work of 91 organized research units, scholarly inquiry covers a broad range of disciplines – literally spanning the known universe from the inner workings of atomic nuclei to the far reaches of space.

In addition to teaching and research responsibilities, faculty members maintain regular office hours and many serve as academic advisers to students. Although UT Austin is a large university, most classes are small enough to allow for considerable faculty and student interaction.

The university seeks to maintain a diverse student body united in its pursuit of higher education. In the 2006 fall semester, the university enrolled about 49,000 students from richly varied ethnic and geographic backgrounds. Every day UT graduates make a difference in their communities as volunteers, teachers, journalists, artists, engineers, scientists, business leaders and lawyers. With world-renowned faculty, top-rated academic programs, successful alumni and such an enticing location, it's no surprise that the University of Texas at Austin ranks among the best universities in the world.

TEXAS A&M UNIVERSITY

Texas A&M University Academic Building.

Texas A&M University, the Lone Star State's first public institution of higher learning, is one of a select few universities in the nation to boast triple Land-Grant, Sea-Grant, and Space-Grant designation. That status and its strong academic programs and rich traditions combine to help make Texas A&M a unique American institution.

The 131-year-old university is located in College Station, a medium-sized community approximately equidistant from the state's major metropolitan areas. Its 5,200-acre campus is one of the largest in the nation and is the home of the George Bush Presidential Library and Museum. Texas A&M also operates a marine-oriented branch campus in Galveston.

Texas A&M has long been known nationally for its school spirit and traditions, including the fact that its students stand throughout football games as the 12th Man to symbolize their

willingness to suit up and play if needed. More recently, it has expanded its reputation to include national recognition for attracting top students, innovative research programs and exceptional academic programs in a host of areas.

In recognition of its strong academic and related research programs, Texas A&M is a member of the prestigious American Association of Universities. It also is home to one of the nation's largest chapters of Phi Beta Kappa, the oldest and most respected undergraduate honor society in the nation.

With 45,380 students as of the fall 2006 semester, Texas A&M ranked as the nation's seventh-largest university. Among those students are 8,291 studying at the graduate level. Students hail from all 50 states and more than 120 foreign countries. The university's student body includes some of the country's brightest men and women. Texas A&M, for example, has consistently

ranked among the nation's top schools in enrollment of new National Merit Scholars. More than 17,000 students hold some type of scholarship, including about 2,500 with major four-year academic scholarships.

Texas A&M continues to have one of the state's best graduation rates for public universities for the overall student body, and for African-American and Hispanic students. Its improving graduation rates represent the bucking of a national trend.

Although military training has not been mandatory for more than a quarter of a century, some 1,800 young men and women still choose to participate in the university's Corps of Cadets. The corps continues to commission more military officers than any institution in the nation except the service academies.

Texas A&M ranks among the top 10 universities nationally in endowment value, reflecting its ability to support world-class faculty and facilities and other aspects of the academic process. The faculty includes two Nobel Laureates, two winners of the National Medal of Science and more than 25 members of either the National Academy of Sciences or the National Academy of Engineering.

The university has embarked on an unprecedented "faculty reinvestment program" under which it plans to make a net new addition of 447 tenured or tenure-track faculty by 2008. Additionally, the university has launched an ambitious construction program totaling approximately \$500 million, which includes a new interdisciplinary life sciences building and two new physics buildings. The campus has numerous state-of-the-art laboratories and research facilities, including a research cyclotron that ranks as one of only three of its caliber in the world. It also has a leading

Texas A&M University boasts a 5,200 acre campus.

chemical characterization center and various installations that place it in the forefront in biotechnology and numerous other disciplines in the life and physical sciences and in engineering.

The research work of an outstanding faculty in exceptional facilities places Texas A&M high in rankings of major universities by the National Science Foundation. The most recent NSF ranking placed Texas A&M among the top 20, and the value of the university's research has grown to more than \$550 million annually. The research projects supported by that funding encompass all of the university's academic colleges: agriculture and life sciences, architecture, business, education, engineering, geosciences, liberal arts, science, and veterinary medicine. Homeland security figures prominently in several new programs at Texas A&M with multi-million dollar federal funding support.

Not to be limited by state or national boundaries, Texas A&M is firmly committed to a global reach and perspective. Its international outreach efforts include memoranda of understanding with more than 130 foreign institutions and organizations throughout the world. It opened a branch campus in Qatar in 2003, with all costs for building and operating the engineering-oriented campus in the Persian Gulf country being paid by the Qatar Foundation for Education, Science and Community Development. Additionally, Texas A&M operates a study center in Castiglion Fiorentino, Italy, and a facility in Mexico City. Also, many College Station-based multi-disciplinary groups are devoted to enhancing research and scholarship opportunities both at home and abroad.

ABOUT THE FOUNDERS

Howard L. Terry

Native Texan Howard L. Terry was born in Milam County in 1916. He attended the University of Texas at Austin on an athletic scholarship and earned his B.B.A. in 1938. He was employed by Procter & Gamble until 1942, when he entered the U.S. Navy and served as a P.T. Boat commander in the Pacific during World War II. He later returned to Procter & Gamble, from which he was recruited to set up a chain of appliance stores, serving as General Manager until 1951. At that time, Terry went into business for himself in lumber, building, and development, building several residential subdivisions in Texas and other states.

Over the following years, Terry founded several businesses in various fields, including Business Funds, Marathon Manufacturing, Crutcher Resources, Allied Bancshares, and Farm & Home Savings.

Beginning in 1979, he became a director and chairman of the executive committee of Penn Central Corp., a position he held until 1986. In 1981, he founded the Terry Companies, a multi-state corporation involved in oil & gas exploration and development.

Howard and Nancy Terry are both long-time residents of Houston, Texas. Mr. Terry enjoys golf and is actively involved in the operations of the Terry Companies and the Terry Foundation. Despite his series of remarkable success in business endeavors in many fields, he often refers to the Terry Foundation as his finest achievement.

Nancy M. Terry

Nancy Terry is a native of New York State, born in Ogdensburg on the St. Lawrence River. She attended the School of Nursing at the University of Rochester, New York, where her hobbies included snow skiing, ice skating, swimming and antique collecting.

She subsequently relocated to Texas and for over thirty years has been married to Howard L. Terry, with whom she founded the Terry Foundation in 1986. Mrs. Terry is active in Foundation events and in the annual interviews in which the new Scholars are selected. Her principal interests now include golf, art, interior design, gardening, politics, her family, her dog, and the Terry Scholars.

ABOUT THE DIRECTORS

Rhett G. Campbell
Foundation Board Chair

Rhett Campbell served on the original Board of Directors of the Terry Foundation and has worked closely with Howard and Nancy Terry in the management and direction of the Foundation since its inception in 1986. He was named Board Chair in 2000.

Rhett is chair of the bankruptcy section of the Thompson & Knight law firm, where his areas of specialization include civil trial and business bankruptcy. He was a founding member in 1977 of the Houston law firm of Morris & Campbell, where he practiced until 2001. He holds both a B.A. (with high honors) and J.D. (with honors) from Southern Methodist University, where he was honored as a Hatton Sumners Scholar and as a member of Phi Beta Kappa, Order of the Coif, and Order of Barristers.

Rhett is married to Houston native Susie Seybold. They have three children and reside in Houston.

Edward T. Cotham Jr.
President

Ed Cotham serves as President of the Terry Foundation, where he assists Howard Terry in the management of the Foundation endowment portfolio and serves as chief operating officer of the Foundation. In 1993, he was named President of Terry Petroleum Company. Prior to joining Terry Petroleum, Ed practiced law with the Morris & Campbell law firm in Houston.

Ed holds an undergraduate degree in Economics from the University of Houston and a Masters Degree in Economics from the University of Chicago. A native Texan, Ed returned to complete a law degree from the University of Texas at Austin.

Ed is a nationally recognized expert on Civil War history and has authored three books on military history. He and his wife, Candy, have one son and reside in Houston.

ABOUT THE DIRECTORS

John W. Storms

John Storms has served on the Foundation Board of Directors since its inception in 1986. John is the Managing General Partner of Storms & Critz, Certified Public Accountants, of Houston. John also serves on the boards of other business entities with operations as varied as banking, oil and gas, and restaurant operations. He is also an active member of the board of Child Advocates, Inc. of Houston and is currently an advisory board member of National CASA Association, the national oversight organization for over 900 such entities across the United States.

John is a Certified Public Accountant and holds a B.B.A. from the University of Texas and an M.B.A. in taxation from the City University of New York.

John and his wife, Charlene, reside in Houston and are the parents of two grown daughters and five grandchildren.

R. Carter Overton III

Carter Overton has served on the Foundation Board of Directors since its inception in 1986. Carter is the President and CEO of Llewelin Operating Company, LLC, a Houston-based management and investment company engaged in direct investment in U.S. oil and gas exploration and production. He worked previously for Terry Petroleum Company, where he served as Vice President of Operations. Carter also serves as immediate past Chairman of the Texas Business Hall of Fame Foundation.

A native Houstonian, Carter received both his B.B.A. and his M.B.A. from the University of Texas.

Carter has two daughters, Josephine and Sophia, and resides in Houston, Texas.

ABOUT THE DIRECTORS

Yvonne Rode Moody

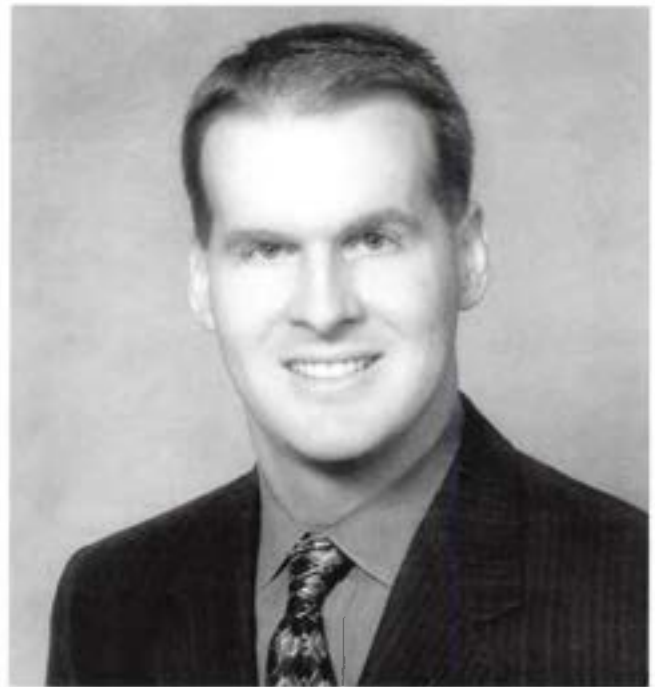

Yvonne Rode Moody was one of the first Terry Scholars, a member of the original class in 1987. She was named to the Foundation Board in 2000, one of the first Alumni Scholars to be named to the Board.

A native of Fredericksburg, Yvonne received a B.S. in Mechanical Engineering from Texas A&M in 1991. She worked for eight years with Chevron as Construction Project Manager for the Houston Retail Marketing Group.

Yvonne's most recent position is as full-time mom to two daughters, with whom she and her husband, Ted, live in San Antonio.

James D. Davis

Jim Davis is a Principal and Consulting Actuary for Milliman in Dallas, where he is a retirement actuary and oversees financial management of the southern U.S. regional employee benefits practice.

A native of Quitman, Texas, Jim became a Terry Scholar in 1989. He graduated from the University of Texas in 1993, where he received a B.A. in Economics (with highest honors) and was elected to Phi Beta Kappa.

Jim was named to the Foundation Board of Directors in 2000, one of the first Alumni Scholars to be elected to the Board. Jim has three daughters and lives in Dallas, Texas.

ABOUT THE DIRECTORS

Jeffrey C. Stichler

Jeff Stichler is an Assistant Principal in the Conroe ISD. He was named to the Foundation Board in 2006, one of two new Scholar Alumni members named to the Board that year.

A native of Fort Stockton, Texas, Jeff was named a Terry Scholar at Texas A&M in 1990, where he graduated in 1995 with a B.S. in Kinesiology and a minor in History. He holds a Masters of Education degree from Sam Houston State University.

Prior to his position in administration, Jeff taught advanced mathematics and coached for 11 years, six years of which were at Conroe's Caney Creek High School, where he was named Teacher of the Year and District Swim Coach of the Year.

Jeff lives in Conroe with his wife, Melanie, and their two children.

Gayle Stinson

Gayle Stinson was named to the Foundation Board in 2006, one of two new Scholar Alumni members named to the Board that year.

Gayle is Superintendent of Schools for the Lake Dallas ISD in north Texas. She served for six years in administration for the Texarkana School District, where her outstanding tenure as principal of Texas High School resulted in her selection as Principal of the Year by the Texas Association of Secondary School Principals.

A native of Redwater, Gayle was one of the first Terry Scholars at the University of Texas, a member of the original class of 1987. She completed her B.S. in 1991 and subsequently earned an M.S. in Education from Texas A&M at Texarkana.

Gayle and her husband, Trent, reside in the north Texas area and are the parents of two daughters.

ABOUT THE FOUNDATION STAFF

Beth W. Freeman
Director of Scholar Relations

Beth Freeman has played a key role in the Terry Foundation since the Terrys established the organization in 1986. Beth joined the Terry Operating Companies in 1983 and was named Foundation Administrator in 1986. For many years, Beth has been the primary liaison among the Foundation Board of Directors, the Terry Scholars, and the participating universities. She was named Director of Scholar Relations in 2002.

Beth coordinates the annual Foundation events and manages communications with the growing body of Scholars and Scholar Alumni. She supervises the annual spring interview process and serves as the Foundation liaison with all universities.

Foundation Staff

The Foundation staff includes Becky Adams, Robert L. Parker, Barbie Tyler, Jamie Thyssen, and Brandy N. Skillern.
